

Fire Wardens eLearning course

This course can be completed using smartphones, tablets, laptops and desktops.

£9.99

Course Information

Description

A fire warden is a designated person allocated to help support the management of fire safety.

A fire warden, is a vital part of an organisation's evacuation team and is responsible for ensuring that evacuation in an emergency is performed safely.

This certificate lasts for three years and is transferable.

Will the course benefit me?

The fire wardens role is an important one, ensuring the safety of workplace colleagues.

As a company or department fire warden you are an integral part of a company's safety team and a valuable asset.

This course is transferable and is proof that you have training as a fire warden.

How will the course benefit my company?

UK legislation requires every business to appoint fire wardens.

The number of fire wardens depends on a range of factors, but the overriding factor is that the fire warden must be able to check their allotted area and reach a place of safety within 2 ½ minutes of hearing an alarm.

What standards are referenced in the course?

This course is written to current HSE guidelines.

Is there an assessment?

At the end of the course, you will be asked questions to check your understanding. These are based on the learning objectives for the course. The pass mark is 80%.

Learning Objectives

- ✓ Recognise the key elements of fire and fire safety provisions
