

INTEGRATED **HUMAN** FACTORS

Consulting, Training, Software and Technology

Helping organisations improve safety, operational performance and resilience through Human Factors consulting, digital solutions and capability development. IHF's services support better decisions, stronger performance and lasting operational improvement.

Unlocking Human Potential

Every organisation relies on people.

Through optimising Human Factors, organisations can:

- Enhance operational performance.
- Improve decision making.
- Strengthen safety culture.
- Increase workforce engagement.
- Support innovation and growth.
- Build organisational resilience.
- Create sustainable improvement.

Trusted Across Industries

**Oil & Gas • Energy • Utilities • Rail
• Transport • Manufacturing •
Defence • Infrastructure •
Aviation • Healthcare**

Integrated Approach

Combining **three core areas** of Human Factors expertise:

Consulting

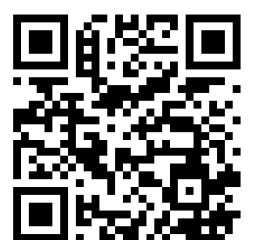

Expert guidance to understand human challenges and identify opportunities for improvement.

Digital Solutions

Technology designed to provide meaningful insights and support smarter decisions.

Training and Development

Building capability that empowers teams and leaders to achieve long-term success.
